Friday and Saturday, November 17-18, 2017

www.AVIDsymposium.org

Symposium Chairs:
George L. Berdejo, BA, RVT, FSVU
Natalie A. Marks, MD, RPVI, RVT

Symposium Co-Chairs:
Nicos Labropoulos, BSc (Med), PhD, DIC, RVT
Laurence Needleman, MD
Frank J. Veith, MD

Honorary Chair:
Anne M. Jones, RN, BSN, RVT, RDMS, FSVU

Symposium & Workshops
28th on Management and Clinical Issues

Sponsored by:
Cleveland Clinic

Hilton

www.AVIDsymposium.org
28TH SYMPOSIUM AND WORKSHOPS ON MANAGEMENT AND CLINICAL ISSUES

FRIDAY AND SATURDAY
NOVEMBER 17 – 18, 2017

SYMPOSIUM CHAIRS
George L. Berdejo, BA, RVT, FSVU
Natalie A. Marks, MD, RPVI, RVT

SYMPOSIUM CO-CHAIRS
Nicos Labropoulos, BSc (Med), PhD, DIC, RVT
Laurence Needleman, MD
Frank J. Veith, MD

HONORARY CHAIR
Anne M. Jones, RN, BSN, RVT, RDMS, FSVU, FSDMS

SYMPOSIUM MANAGING DIRECTOR
Jacqueline M. Simpson, BBA

SYMPOSIUM ASSOCIATE DIRECTOR
Steven J. Feld, MSW

WORKSHOP COORDINATORS
Fernando Amador, RVT
Richard Dubin, AAS-DMS, RVT, RDMS
Kelvin Portalatin, AA, RVT

CENTER FOR CONTINUING MEDICAL EDUCATION
Steven M. Kawczak, PhD

Peripheral Vascular Disease (PVD) in the U.S. affects approximately 8 million to 12 million patients a year; some experts in the field believe this may be underestimated. The disease is associated with significant cardiovascular morbidity and mortality, with a high rate of fatal and non-fatal cardiovascular events such as myocardial infarction, stroke, renal failure, limb amputations, abdominal aortic aneurysms, pulmonary embolus and progressive ischemic end-organ dysfunction.

Since atherosclerosis is the most common cause of PVD, patients with PVD have a rate of cardiovascular mortality that is 3 to 4 times higher than age-matched controls. The cardiac mortality in symptomatic PVD is estimated to be 50% at 10 years. The reduction in quality of life from global vasculopathy in many patients can thus be significant.

Prompt and accurate diagnosis of these disease processes is of utmost importance. The AVIDsymposium is designed to address this need by providing the vascular community with continuing medical education in this area. The latest pharmacologic, radiologic, surgical and endovascular techniques and technologies will be presented, along with discussions of when these treatments are justified and indicated and when they are not. Updates on clinical trials and opportunities for dialogue with experts in the field provide insight along with the latest data on the results of the various diagnostic and treatment modalities.

EDUCATIONAL OBJECTIVES

Advances in Vascular Imaging and Diagnosis 28th Symposium and Workshops on Management and Clinical Issues is an intensive two-day course designed to provide a comprehensive update on the diagnosis of vascular disease using real time B-mode imaging, color and spectral Doppler and other noninvasive techniques. The course will also address important issues in the area of Vascular Laboratory management, vascular ultrasound education, reimbursement and laboratory accreditation. An internationally renowned faculty has been assembled to provide the latest in their respective areas of expertise. This will be accomplished via didactic lectures and will be enhanced by ample time for faculty panel discussions designed to provide interaction with the audience. In addition, live scanning demonstrations and hands-on workshops will be supervised by known experts in their fields and will utilize leading edge equipment.

Following this continuing medical education activity, the participants will:

- Describe recent developments in vascular ultrasound technology
- Incorporate the Vascular Laboratory into the management of patients with vascular disease
- Identify and compare noninvasive tests that are available to aid in the diagnosis of vascular disease
- Identify current therapy and their roles for the effective management of peripheral arterial/venous disease; and carotid artery disease
- Utilize duplex ultrasound prior to, during and after endovascular procedures
- Apply issues regarding Vascular Laboratory management, reimbursement and accreditation to their practice.

TARGET AUDIENCE

This course is intended for:

- Vascular Technologists
- Sonographers
- Vascular Surgeons
- Radiologists
- Neurologists
- Vascular Nurses
- Vascular Interventionalists
- Medical and Ultrasound Students
- and other physicians and allied health professionals with an interest in the diagnosis and treatment of vascular disease.
ONLINE ACCESS TO ABSTRACTS
Presentation slides will be used as abstracts and will be available on the program page of the AVIDsymposium website at www.AVIDsymposium.org after the meeting. Abstracts will be available on the website for one full year.

ACCREDITATION STATEMENT
The Cleveland Clinic Foundation Center for Continuing Education is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Cleveland Clinic Foundation Center for Continuing Education designates this live activity for a maximum of 18.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Participants claiming CME credit from this activity may submit the credit hours to the American Osteopathic Association for Category 2 credit.

FOR ARDMS AND CCI CREDENTIALED VASCULAR TECHNOLOGISTS AND SONOGRAPHERS
For Vascular Technologists and Sonographers, Continuing Medical Education credit hours are available on an hour-for-hour basis and may be used to fulfill the continuing medical education requirements necessary to retain certification with the American Registry for Diagnostic Medical Sonography (ARDMS) 1 and Cardiovascular Credentialing International (CCI) 2 or for accreditation with the Intersocietal Accreditation Commission (IAC).

2. http://www.cci-online.org/content/ceu-providers

CME CERTIFICATES AND COURSE EVALUATION FORMS
CME certificates will be available online at www.AVIDsymposium.org. An e-mail with a unique password and instructions on how to obtain the certificate and complete a brief, optional course evaluation will be sent to all registered attendees after the meeting. The e-mail will be sent to the e-mail address that was used to register the attendee. Please note that CME Certificates must be claimed by February 28, 2018.

FACULTY DISCLOSURE
The Cleveland Clinic Foundation Center for Continuing Education has implemented a policy to comply with the current Accreditation Council for Continuing Medical Education Standards for Commercial Support requiring resolution of all faculty conflicts of interest. Faculty declaring a relevant commercial interest will be identified in the activity syllabus.

ADA STATEMENT
The Cleveland Clinic Foundation Center for Continuing Education complies with the legal requirements of the Americans with Disability Act. If any participant of the AVIDsymposium requires special assistance, please send written request at least one month prior to the activity to admin@AVIDsymposium.org, or by fax to (845) 368-2324.

HOTEL AND TRAVEL
A block of rooms has been reserved at the conference rate of $399 plus taxes per night. This rate is available until the block is filled or until October 8, 2017. Please request the VEITH rate when reserving your accommodations.

New York Hilton-Midtown (Symposium Site)
1335 Avenue of the Americas
New York, NY 10019

SOCIAL EVENTS

FIRST HAND TICKETS
The love of live entertainment is what drives us. Specializing in hard to find, and sold out events - our mission is to get everyone a great seat. With a seasoned staff, we guarantee to exceed your expectations. Most importantly we ensure a safe and friendly transaction. At First Hand Tickets we are proud to be the leading Ticket Agency in New York focusing in all Sports, Theater and Concert events around the world. From single tickets to large groups, we will accommodate your needs with professionalism and attention to detail. Experience a new level of entertainment with First Hand Tickets.

For more information or to arrange your social events while at AVIdsymposium, please contact:
Warren Schreiber at wschreiber@firsthandtickets.com
Phone: 516-376-8092 or (866) 375-7591
## FRIDAY, NOVEMBER 17, 2017

### FRIDAY SESSIONS 1–2

#### 7:50 – 8:00
**Welcome And Opening Remarks**
- Navigating The Meeting And Optimizing Your Experience
- George L. Berdejo, BA, RVT
- Natalie A. Marks, MD, RPVI, RVT

#### SESSION 1
**HEMODYNAMICS, DOPPLER AND ARTIFACTS**
**Moderator:** George L. Berdejo, BA, RVT

FRIDAY
SESSION 3

WORKSHOP ROTATION 1

10:50 – 12:00

ROOM 1
Challenging Vascular Ultrasound Cases
Laurence Needleman, MD
Richard C. Pennell, MD
R. Eugene Zierler, MD, RPVI

This workshop will discuss the step-by-step protocol for interpreting the vascular ultrasound study with attention to potential pitfalls in a variety of basic and difficult vascular cases.

ROOM 2
“What’s Wrong With This Picture?”
Angela A. Kokkosis, MD, RPVI
Sareh Rajaee, MD, MPH

Case Studies highlighting an experience in real-world practice. With the high variability in ultrasound operators, practices often typically have to “repeat” studies from other facilities. This workshop will focus on “commonly reported mistakes” in vascular ultrasound and how to recognize them.

ROOM 3
More On What Every Sonographer Needs To Know About Optimizing The Vascular Image: Case Study Presentations
Richard Dubin, AAS-DMS, RVT, RDMS
Mani Montazemi, RDMS

MURRAY HILL SUITE
More On Cardiac Effects On Peripheral Vein And Arterial Disease Evaluation: Case Study Workshop
Heather L. Gornik, MD
David M. Williams, MS, RDCS, RVT

ROOM 4
Transmitting And Receiving On The Future’s Edge
Frank Miele, MSEE

At the heart of cutting edge changes in vascular ultrasound are at least four major factors: improvements in signal processing, new techniques such as contrast imaging and the use of nanoparticles, etc., improvements in signal acquisition, and the use of ultrasound for disease treatment. Over the last few years there have been significant advancements in the technology which fundamentally change signal acquisition, processing, and even the focus of ultrasound from diagnostic tool only to medical treatment tool, including promising applications of ultrasound for conditions such as brain tumors and Alzheimer’s. This didactic workshop will focus on the technology changes and what they mean to the future of ultrasound.

ROOM 5
Practicing Proper Ergonomic Posture
Matthew P. Hernandez, BSc, DPT, CSCS

Learn how to recognize high risk behaviors and manage your posture. This workshop will provide tips and tricks to decrease your potential for injury during scanning.

12:00-12:10
Pick up Lunch in the South Corridor Exhibit Area (2nd Floor) and return to the Murray Hill Suites for the Luncheon Program.
### SESSION 4

**LUNCHEON PROGRAM: ERADICATING PARADIGMS IN VASCULAR ULTRASOUND**

</tbody>
</table>
SATURDAY
SESSIONS 10–13

**SESSION 11**
CHALLENGING ISSUES IN THE CURRENT HEALTH CARE ENVIRONMENT AND IN THE SPECIALTY OF VASCULAR ULTRASOUND: WHERE IT’S GOING, REIMBURSEMENT, CERTIFICATION AND LICENSURE, ACCREDITATION

**Moderator:** Anne M. Jones, RN, BSN, RVT, RDMS

**9:15 – 9:24**
State Licensure Updates And Concerns
Anne M. Jones, RN, BSN, RVT, RDMS

**9:24 – 9:33**
Breaking News On Vascular Lab Reimbursement: What Has Changed And Why?
Sean P. Roddy, MD

**9:33 – 9:42**
Is There Any Hope For A Standalone Code For Venous Insufficiency Testing?
Robert M. Zwolak, MD, PhD

**9:42 – 9:51**
The IAC Quality Improvement Program: How It Can Help
Laurence Needleman, MD

**9:51 – 10:00**
Update On ARDMS Sonographer And Physician Credentialing And Expansion Of Credential To Other Specialties
R. Eugene Zierler, MD, RPVI

**10:00 – 10:09**
Update On CCI Sonographer Credentialing And Other Activities
Diana L. Neuhardt, RVT, RPhS

**10:09 – 10:20**
Panel Discussion

**SESSION 12**
ABDOMINAL IMAGING

**Moderator:** Leslie M. Scoutt, MD

**10:20 – 10:30**
Robert De Jong, RDMS, RVT

**10:30 – 10:40**
5 Top Tips On Hepato-Portal Imaging
Mani Montazemi, RDMS

**10:40 – 10:50**
Duplex Follow-Up Of Renal And Mesenteric Stents After Fenestrated EVAR
R. Eugene Zierler, MD, RPVI

**10:50 – 11:00**
Imaging Of Endoleaks After EVAR
Leslie M. Scoutt, MD

**11:00 – 11:10**
Break – Visit Exhibits (2nd Floor)

**SESSION 13**
WORKSHOP ROTATION 2

**11:10 – 12:00**
MURRAY HILL SUITE

Frederick Kremkau, PhD
**IMAGING ESSENTIALS - GUIDANCE FROM THE GUIDELINES AND STANDARDS: PROTOCOLS IN VASCULAR IMAGING**

These workshops will instruct practitioners on techniques of assessment and imaging in a variety of common and uncommon disease states. In addition, these practical workshops will discuss workflow and quality that you can incorporate into your laboratory practice when you return home.

2. Upper Extremity Vessel Mapping Prior To Hemodialysis Access Surgery
   - Richard Dubin, AAS-DMS, RVT, RDMS
   - Angela Rodriguez-Wong, MD, RPVI, RVT

3. Physiologic Testing In Arterial Disease
   - Anne Marie Kupinski, PhD, RVT

4. Vein Reflux Evaluation
   - Joseph Zygmunt, RVT, RPhS

5. Carotid Duplex Evaluation
   - William N. Del Valle, RVT
   - Kelvin Portalatin, AA, RVT

6. Hemodialysis Access
   - Joseph P. Hughes, RVT, RVS
   - Fernando Amador, RVT

7. Renal Artery And Mesenteric Evaluation
   - Mani Montazemi, RDMS

8. Vein Reflux Evaluation
   - Diana L. Neuhardt, RVT, RPhS

1. Transmitting And Receiving On The Future's Edge
Frank Miele, MSEE

At the heart of cutting edge changes in vascular ultrasound are at least four major factors: improvements in signal processing, new techniques such as contrast imaging and the use of nanoparticles, etc., improvements in signal acquisition, and the use of ultrasound for disease treatment. Over the last few years there have been significant advancements in the technology which fundamentally change signal acquisition, processing, and even the focus of ultrasound from diagnostic tool only to medical treatment tool, including promising applications of ultrasound for conditions such as brain tumors and Alzheimer’s. This didactic workshop will focus on the technology changes and what they mean to the future of ultrasound.

2. Quality Matters – Manage It Well
Richard Dubin, AAS-DMS, RVT, RDMS

This workshop will discuss basic and advanced setup of presets for Venous, Arterial and Carotid Duplex examinations. What are the common B-Mode, Spectral and Color Doppler and basic dynamic optimization parameters and how to quickly adjust them for maximum performance. The setup for more advanced needs – Visceral, Dialysis Access, TCD/Duplex and EVAR Duplex will also be covered.

IMAGING ESSENTIALS - GUIDANCE FROM THE SOCIETY GUIDELINES AND STANDARDS: PROTOCOLS IN VASCULAR IMAGING

These workshops will instruct practitioners on techniques of assessment and imaging in a variety of common and uncommon disease states. In addition, these practical workshops will discuss workflow and quality that you can incorporate into your laboratory practice when you return home.

3. Lower Extremity Arterial Imaging

Transition to Plenary Sessions (Murray Hill Suites, 2nd Floor)
### SESSION 16

**2:40 – 2:50**

**Evidence Based Venous Ultrasound: Does The Evidence Support Your Lab’s Policies?**  
Laurence Needleman, MD

**2:50 – 3:00**

**Is A Routine Full (Groin To Ankle) Examination Necessary In All Patients Suspected Of DVT Or Is A Limited Examination And D-Dimer Safe In Selected Patients**  
Mark A. Oliver, MD, RPVI, RVT

**3:00 – 3:10**

**Role Of The Vascular Lab In Diagnosis And Treatment Of Venous Thoracic Outlet Compression Syndrome**  
Richard C. Pennell, MD

**3:10 – 3:20**

**Management Of Iliac Venous Compression In The Young, The Old And The Very Old Patients**  
Anil P. Hingorani, MD

**3:20 – 3:30**

**Panel Discussion**

### SESSION 17

**CURVEBALLS AND CONTROVERSIES**

**Moderator:** Sergio X. Salles-Cunha, PhD, RVT

**3:30 – 3:40**

Phillip J. Bendick, PhD, RVT

**3:40 – 3:50**

**What Every Sonographer Needs To Know About Optimizing The Vascular Image: How To And Why It Makes A Difference: 5 Case Studies**  
Mani Montazemi, RDMS

**3:50 – 4:00**

**New Paradigm For Sonographic Principles: One-Year Progress Report**  
Frederick Kremkau, PhD

**4:00 – 4:10**

**Ultrasonographic Tissue Characterization Of Kidneys In Patients With Unilateral Renal Artery Stenosis**  
Sergio X. Salles-Cunha, PhD, RVT

**4:10 – 4:20**

Break

### SESSION 18

**CEREBROVASCULAR TESTING ISSUES**

**Moderator:** Richard C. Pennell, MD

**4:20 – 4:31**

**Update On The IAC Carotid Consensus Project**  
Heather L. Gornik, MD

**4:31 – 4:42**

**A Single Center’s Experience In Search Of The Holy Grail Of Carotid Stenosis Criteria**  
Richard C. Pennell, MD

**4:42 – 4:53**

**Evaluation Of The Aortic Arch Vessels**  
Nicos Labropoulos, BSc (Med), PhD, DIC, RVT

**4:53 – 5:04**

**Vertebral Artery Evaluation Is About More Than Just Flow Direction**  
Laurence Needleman, MD

**5:04 – 5:15**

**Non-Atherosclerotic Carotid Disease Processes**  
Sergio X. Salles-Cunha, PhD, RVT

**5:15 – 5:30**

**Panel Discussion (Combined Sessions 17 and 18)**

**5:30 – 5:35**

**Closing Remarks**  
George L. Berdejo, BA, RVT

Natalie A. Marks, MD, RPVI, RVT

**5:35 – 5:40**
