Sharing Clinicals Experiences with Multilayer Flow Modulator (MFM®)

You can find us on Booth #420
Situated in the Ballroom Foyer, 3rd Floor

Lunch Symposium on Thursday Nov 17th (Non-CME Activity)

Situated in the Clinton Suite, 2nd Floor Promenade and South Corridor, 12 to 2 PM

Introduction by:

Prof. Rodney A. White, UCLA, Los Angeles, USA
Dr. Ralf R. Kolvenbach, Augusta Hospital Duesseldorf, Germany

1. Insights from complex aortic surgery with MFM for aortic arch repair (STAR)
   Prof. Sherif Sultan, National University of Ireland, Galway, Ireland

2. New horizon for treatment of peripheral aneurysms in Japan
   Prof. Kei Takase, Tohoku University, Sendai, Japan

3. In vitro validation of branch perfusion promoted by MFM for infrarenal AAA
   Simon Tupin, PhD, Tohoku University, Sendai, Japan

4. Success of MFM in challenging cases for complex peripheral and visceral arterial aneurysms
   Dr. Michel Henry, Luxembourg

5. Effectiveness of MFM in type B dissection and aortic aneurysms treatment: Long term follow-up
   Dr. Amira Benjelloun, CMC Cœur et Vaisseaux, Agdal-Rabat, Morocco

   Dr. Uei Pua, FRCR, Tan Tock Seng Hospital, National Healthcare Group, Singapore

7. Global Experience in endovascular treatment for complex aortic disease
   Prof. Victor Costache, European Hospital Polisano, Sibiu, Romania

8. Why MFM works and what we have learned from long-term follow-up in Brazil
   Prof. Daniel Benitti, MD, Hospital do Coração, São Paulo, Brazil

   Dr. Lambros Athanasiou, Massachusetts Institute of Technology, Cambridge, USA

The Session will be followed by questions and answers.

Device not yet sold in the United States of America. This session is a non-CME Activity.
